

EXTREME GREASE REMOVER

PART # 33693M3

DESCRIPTION

EGR: Is a mix blend cleaner based on fatty ester. **EGR** leaves an anti-corrosion residue. Cleaning services value the product because of its broad spectrum of use and high cleaning power.

EGR is ideal for cleaning crude oils, grease deposits, anti-corrosion coatings, (printing) ink, hydrocarbon residues, tar-like deposits, etc.

EGR is Non toxic, Non-flammable, Biodegradable and quickly de-emulsifies for use with water-oil separators.

ADVANTAGES:

- › Non- flammable, Non-poisonous, Phosphate free, Non-toxic
- › High biodegradability

REPLACEMENT FOR:

EGR is a replacement for vapor degreasing solvents, chlorate products and solvent/emulsion cleaners

DIRECTIONS FOR USE: GENERAL CLEANING

EGR is used as a “ready to use” product. Depending of the nature and thickness of the contaminant, use in spray, bucket and brush, or cleaning unit. To apply, add **EGR** to the surface to be cleaned. Allow some time for penetration, generally 2-to-15 minutes for **EGR** to take effect. Remove dirt by hard brush-in or by high pressure application. **EGR** leaves an anti-corrosion film. When a surface has been treated, rinse with water. Increasing temperature (up to 45 °C) speeds up cleaning-time and cleaning activity. Cleaning equipment units are available in different sizes and also in a warm version. Product information is available upon request. **EGR** can be safely be used with all methods of cleaning: circulation cleaning, manual cleaning, etc.

SPECIFICATIONS:

Appearance	Light Yellow
Specific Weight at 20 °C.	± 0.87
Danger Class	None
Ph (sol. 20 ml/l)	Appr.: > 6 < 8

SAFETY **Keep out of reach of children.** For further information see Material Data Safety Sheet

PACKAGE 20 Lltr., 200 Ltr., 1,000 Ltr.

SHELL LIFE 4 years

STORAGE Do not store under 35°F / 2°C and not above 122°F / 50°C Do not use below 35°F / 2°C.
